Girardeau; Paul H. Linn, Fayettemore than fifty speakers altogether.

# The "Register" Tobacco Fund for Our Soldiers in Europe

The good women of the country are knitting sweaters, socks, wristbands and all sorts of comfortable things to send to the soldiers at the front. What about tobacco? There is nothing you can think of that will give more comfort and solace to those men than tobacco.

This paper has made all arrangements to send tobacco, and not only that, but is going to send the most popular brands in this country—the kinds that many of the men have used at home and that they all know are good.

Tobacco can be sent to Europe without tax, import duty or freight. Through the generosity of leading tobacco manufacturers we are enabled to send 50e worth of smoking tobacco, chewing tobacco or cigarettes for 25c.

It will be worth many quarters to receive grateful acknowledgement of your donation from some soldier at the front. A return post card stamped and addressed to you will be placed in each package you donate.

Send us a quarter if that is all you can spare, or more if you can spare it. This is a time to make sacrifices for the comfort of those who are risking their lives. Send one dollar, ten dollars, or one hundred dollars if you can spare it. There won't be any too much tobacco to go around. The names of all those who make donations and the amounts donated will be published in this newspaper from time to time.

Cut out the form below, fill it out for as liberal an amount as you can afford and send to us with your contribution without delay as it is important to get tobacco to the other side as quickly as it can be done.

#### Publisher IRON COUNTY REGISTER, Ironton, Mo.:

In accordance with your offer to send popular brands of tobaccos and eigarettes to our soldiers in Europe in units of 50c packages, each for 25c., I enclose \$ thank you to send the kinds I have marked below and enclose in each package a stamped return post card addressed to me.

..... 25c pkg. No. 1. Popular eigarettes having retail value of 50c.

..... 25e pkg. No. 2. Popular pipe tobacco having retail value of 50c.

..... 25e pkg. No. 3. Popular eigarette tobacco having retail value of 50c.

..... 25c pkg. No. 4. Popular plug chewing tobacco having retail value of 50c.

#### Must Have Federal License.

WASHINGTON, November 11-Apv person in the United States found with cember 15, and who does not have a icense issued by the Federal government showing the purpose for what the explosives are to be used, will be 000 or sent to prison for one year. If the circumstances warrant, the person may be fined \$5,000 and in addition given the one year in prison.

are used in the coal mining industry, explosives that may be left. has been appointed by Secretary of the Director of the bureau is empowed to utilize the services of all United States officers and all police officers of the states, including the city police forces, county sheriffs, deputies, constables, and all officers in any way charged with police duties. The police of the cities have already been organized for this Major R. W. Pullman, superintendent of police of Washington, D. C., is chairman. The police are not only to look after the enforcement of the law, but are also to make thorough investigations of all dynamite outrages and fires in factories and warehouses, and to make their reports to the

Bureau of Mines. Persons apprehended in plots to blow up factories and bridges will be turned over to the authorities for prosecution under Federal or state laws. Most states have specially severe punishment for these crimes. New York has an extreme penalty of twenty-five years imprisonment for the placing of dynamite with intent to blow up property. The penalty provided in this Federal war measure is merely to cover the illegal possession of explosives.

The law provides that everyone who handles explosives must have licenses issued by the Bureau of Mines in Washington. The seller of explosives must also have licenses; these be: John L. Alexander, Chicago; W. to be issued generally by county D. Stem, Des Moines; W. E. Chalmers, clerks, or other local officers who are Philadelphia; A. M. Locker, St. Paul; authorized to administer oaths. There ernethy, Kansas City; Mrs. Nelle G. each county, and more agents will be Burger, Clark; Mrs. Marie Turner designated if the source agents will be will be at least one licensing officer in Burger, Clark; Mrs. Marie Turner designated if the county is sufficiently Harvey, Kirksville; Uel W. Lamkin, large to warrant it. If a state has Jefferson City: W. S. Dearmont, Cape laws providing for a system of licensing persons manufacturing, storing, selling or using explosives, the state One of the chief points of interest selling or using explosives, the state will be the educational exhibit of puofficials authorized to issue such state

laws and local ordinances.

With the strict enforcement of this the Interior Lane to act as assistant law, the Federal authorities hope to to the Director of the Bureau of prevent explosives falling into the Mines, Van H. Manning, in the en hands of evilly-disposed persons and forcement of the law. Under the law, to put a stop to all further dynamite Court at Jefferson City on Saturday

## Start Spring Garden in Fall.

Spring garden? Yes, it's time to start next spring's garden, says J. T. Rosa, Jr., of the University of Missouri College of Agriculture. As soon as frost has killed all the late vegework, beaded by a committee of chiefs tables, the dead vines of such crops of police in the big cities, of which as tomatoes, squash, and melons, which harbor insects and diseases that will give trouble next spring, should be pulled and burned. The last of the root crops may be taken up and stored in a trench or in a cellar.

When the garden has been cleaned, broadcast over the ground some rotten stable manure, add a sprinkling of either bone meal or acid phosphate fertilizer and plow the whole under. The furrow slices hold the rain and snow and expose the soil to the pulverizing action of frost. The fall plowed garden is ready for planting sooner in the spring than is the spring plowed garden. Where the soil is loose it dries quickly and is ready for planting earlier. The soil is in better shape for working and for growing plants. Early vegetables planted in the fall plowed garden will make a quick start, for the organic matter will have partially decayed and become well incorporated in the soil during the winter. Frequently in the rush of spring work, unless the garden was fall plowed, it may remain unplowed until late. Thus the effectwill be reduced.

#### Catherine Mines Close; not Expected to Re-open.

COMMUNICATION OF

# "Very Benefited"

Many thousands of women who have become weak, run-down and nervous, or who suffered from womanly troubles, have been greatly benefited by the use of Cardul, the woman's tonic. We receive many letters from women, similar to the following from Mrs. Othe Dellinger, of Jefferson-ville, Ind.: "Sometime ago my health failed," she says. "I was in a very weakened, run - down condition, hardly able to go. I was nervous, and could not sleep. I didn't have any appetite, and knew I must have some-thing to build me up."

TAKE
